

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

First Named
Inventor : John A. Kielb

Filed : Herewith

For : STABILIZATION IN A RADAR
LEVEL GAUGE

Docket No.: R11.12-0662

REISSUE APPLICATION DECLARATION BY THE INVENTOR

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Express Mail No. EV178019807US

I hereby declare that:

Each inventor's residence, mailing address and citizenship are stated below next to their name.

I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number 6,300,897, granted October 9, 2001 and for which a reissue patent is sought on the invention entitled STABILIZATION IN A RADAR LEVEL GAUGE, the specification of which is attached hereto.

I have reviewed and understand the contents of the above-identified specification, including the claims.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

4K
204-03
I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below by reason of the patentee claiming less than he had the right to claim in the patent.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

The claims in my original patent do not include claims drawn to the broader concept of stabilizing a frequency separation in a radar level gauge. While the claims existing in the

original patent do claim features for which I
desire protection, the original claims are limited
to systems that generate at least two frequency
separations. Therefore, the patent is wholly or
partially inoperative for ^{falling}~~claiming~~ to claim the full
extent of my invention.

JAK
-Oct-03

(REISSUE APPLICATION DECLARATION BY THE INVENTOR, page 2)

All errors corrected in this reissue application arose without any deceptive intention on the part of the applicant.
